EXPERIENCE

AdTheorent (now Cadent), *Predictive ML AdTech Platform* *2021 - Present*

Senior Yield Manager (Data Operations & Measurement) *2026 - Present*

- **Data Infrastructure** – Designed scalable solutions for pacing, cross-platform reconciliation, and verification discrepancies; translated requirements into SQL logic, source mappings, and validation frameworks with BI, Data, and Engineering.
- **Performance Growth** – Owned end-to-end buying, technical troubleshooting, and optimization across 250+ CTV, video, display, and rich media campaigns; drove $10M+ in incremental revenue through optimizing CPA and ROAS performance.
- **Measurement Solutions** – Led audience-quality measurement across strategic healthcare accounts, translating optimization requirements into cross-functional data workflows and developing a framework that drove 10–50% lift.
- **Product & Automation** – Served as Operations SME for an AI-assisted optimization agent, translating workflows into product requirements and leading UAT; automated campaign diagnostics, analysis, and optimization recommendations.

Senior Yield Manager *2023 – 2025*

Healthcare Vertical | 2024 – 2025

- Led technical troubleshooting across CTV, video, display, audio, and rich media, resolving complex VAST tag, tracking pixel, delivery, and reporting discrepancies at scale while scaling a managed book of business from $1.4M to $14M.
- Selected to support the Healthcare vertical, representing 40% of company ARR; managed complex performance and measurement programs across strategic health accounts, working directly with clients, Product, and Engineering.
- Led analyst onboarding and developed repeatable trading, troubleshooting, and optimization workflows, enabling two analysts to independently manage campaigns within three months and scale team operational capacity.

Yield Manager *2021 – 2022*

- Managed programmatic campaigns across digital channels, diagnosing delivery and performance issues and using CPA, ROAS, engagement, and brand-lift data to develop optimization recommendations and improve overall campaign efficiency.
- Implemented measurement programs with third-party partners including Kantar and AppsFlyer, developing a brand-lift optimization framework to translate measurement results into campaign actions and improve cross-channel decisions.
- Synthesized campaign and user feedback to identify platform issues and product requirements, partnering across Client Services, Product, and Engineering to triage issues, prioritize high-impact fixes, and improve platform reliability.

RPA, *Full-service advertising agency serving Fortune 100 clients* *2019 – 2021*
